

## Spectralink 7000 Portfolio

DECT In-Building Wireless Solution

Spectralink meets the standards of Digital Enhanced Cordless Telecommunications (DECT) and then surpasses them with its user-friendly, full-featured, and application-enabled handsets and flexible server solutions.

The Spectralink 7000 Portfolio consists of a range of wireless DECT handsets and servers, which provide features and solutions that empower mobile workers across different industries. The modular nature and scalability of the servers make sure that any organization's needs can be matched. Moreover, all handsets are compatible with one another, making it possible to combine several models in a single wireless system so you can choose the right device for each person.

### Solutions for your needs.

Spectralink offers the industry's most versatile DECT solutions for the workplace. Through our solution partners, we offer a wide range of functional and industry-specific applications that enable mobile workers to do their job better. With the right in-building, DECT solution, you can dramatically improve responsiveness, productivity and customer service of mobile workers so you and your team can solve every day.

## The Spectralink 7000 Handset Portfolio

The Spectralink 7000 Handset Portfolio supports a broad range of applications from general office to healthcare to manufacturing to retail. The lightweight handsets are extremely easy to use, require minimal training and are durable. They feature exactly the right tools to help you do the things you need to—like highest quality voice connections everywhere, backlit displays for dimly lit areas, panic button, text messaging and more.

### 74-Series

The 74- Series is robust, feature-rich handsets designed to meet the demands for mobility in a range of specialized working environments.

The Spectralink 7480 handset is IP 64 classified and IEC approved, and ideal for potentially explosive work environments.

### 75-Series

The elegant and robust 75-Series has a large color screen and an intuitive user interface making it a valuable working tool and a preferred choice for mobile workers in administrative working environments across various vertical markets.

### 76-Series

The ruggedized 76-Series combines maximum functionality and elegant design with high durability. The IP 64 classified handsets are resistant to dirt, dust, and splashing water, and are designed to meet the needs of a mobile workforce in industrial working environments.

## 77-Series

The disinfectant-resistant 77-Series combines mobility and hygiene. The application-enabled handsets are designed to enable healthcare personnel to be mobile while still within quick reach in critical situations.

## Butterfly Series

The Butterfly Series is a user-friendly handset designed for office environments with the most important features and functionalities of basic voice communication and messaging. Available in five colors, to distinguish employee groups or your business' personality.

## The Spectralink 7000 Server Portfolio

The Spectralink 7000 Server Portfolio includes a range of wireless DECT servers for businesses of all sizes. The Spectralink DECT Servers are flexible and scalable add-on solutions that can be added as your business develops. Running on open standards, the Spectralink DECT servers can integrate with third-party application and customized to your every need.

Choose Spectralink's DECT solutions because we are the experts in:

- application-enabled workplace solutions
- modular, scalable servers
- handset compatibility
- durability and high quality features
- third-party integration

### Spectralink IP-DECT Server 400

The Spectralink IP-DECT Server 400 is the ultimate solution for small to medium-sized businesses and can be deployed as a single-cell or a multi-cell solution. The single-cell solution supports 12 users and six simultaneously calls. You can easily upgrade to a multi-cell solution if you need more users or coverage of a larger area or multiple locations.

### Spectralink DECT Server 2500

The Spectralink DECT Server 2500 is a flexible add-on solution ideal for small and medium-sized businesses. The Spectralink DECT Server 2500 can deploy either digital, SIP VoIP, or a combination of digital and SIP VoIP telephony.

### Spectralink IP-DECT Server 6500

The Spectralink IP-DECT Server 6500 is an ideal solution for radio coverage over a large geographical area or to equip a large number of mobile employees with wireless telephony - or both. The modular nature of the Spectralink IP-DECT Server 6500 makes it a scalable, flexible and future-proof solution that can grow with your organization.

### Spectralink DECT Server 8000

The Spectralink DECT Server 8000 is a scalable solution for medium-sized to large enterprises with support for up to 4,095 wireless users. Up to eight servers with 64 slots for interface cards can be linked together to allow for numerous ways to customize the solution to your organization's needs.

### You have a choice with us.

Spectralink also offers the 6000 Portfolio (900 MHz) and the 8000 Portfolio (2.4/5 GHz Wi-Fi). Learn which best fits your needs.

### Professional Services

Spectralink can help ensure that you achieve better return on investment, increased uptime and improved reliability with highly responsive services and support options.
