30+ Years of Superior Protection

Para Systems, Inc. has supplied reliable, innovative, and value-priced power protection products for the commercial and consumer markets since 1982. Through the years, the Minuteman® line of power protection products has guarded hundreds of thousands of businesses, schools, hospitals, and homes, protecting billions of dollars in vital equipment and infrastructure.

Complete Power Solutions

Minuteman's comprehensive line of power protection and management products includes:

- Single and three-phase UPSs up to 750kVA
- Surge suppression products for non-vital equipment
- Power Distribution Units for racks
- Remote Power Management solutions up to 128-ports
- SentryPlus network UPS monitoring & management software

Minuteman products are suited to the exacting needs of users across a range of applications.

- Computers and workstations
- Network servers and communications equipment
- Telecommunications systems
- Security systems and DVRs/cameras
- Industrial equipment requiring high quality power

Quality Focused, Value Driven

Since the beginning, the Minuteman brand has stood for the most reliable power protection products at the best value for our customers. We strive to continue this today, working to ensure Minuteman products provide more runtime, rich feature sets, and superior service, all at a price that meets or beats our competition.

- Longer runtimes across the board thanks to high quality hardware and efficient batteries and design
- A one-stop solution for protection and management of power
- More features per dollar vs. competitor product lines

Guaranteed Reliability

Minuteman stands behind all products with a lengthy standard warranty and protection plan, along with additional extended warranty options.

- 3-year standard warranty covering all parts and labor, as well as non-prorated coverage of batteries
- 5-year extended warranty plans available including Premiere plans which include automtatic battery replacement after 3 years

Minuteman's Platinum Protection Plan® insures properly connected equipment against damage up to $100,000 (U.S. 48 & Canada only).
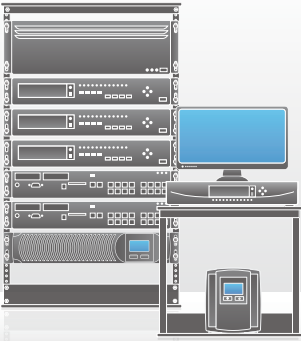

Industry-leading Support

Our Texas-based sales & technical support teams pride themselves on providing the best support in the industry.

- Expert UPS Sizing & Selection help for your specific application to ensure the proper solution
- Friendly Technical Support staff with in-depth product knowledge across industries and applications
- Experienced, friendly support teams ready to help before and after the sale

ideal protection for **every system** & **every budget**

MINUTEMAN®
POWER TECHNOLOGIES

Complete Protection & Management Solutions from Minuteman

Small peripherals, PCs, phone, and network equipment

MMS Series Surge Suppressors

Protection from surges & spikes for non-critical peripherals & other components. The most cost-effective protection option Minuteman offers.

model	format	outlets
MMS362P	strip	6
MMS780R	strip	8
MMS660S	wall tap	6
MMS664S	strip	6
MMS686SCT	strip	8
MMS130RC	wall tap	3

EnSpire Series UPSs

Compact, economical protection from surges, spikes, brownouts & blackouts for small DVRs, PCs, & other critical components that will be needed during power outages.

model	outlets (batt./surge)	VA/Watts
EN400	3/3	400/200
EN600	3/3	600/300
EN750	4/4	700/400
EN900	4/4	900/500

Entrust Series UPSs

Ultra compact tower featuring Automatic Voltage Regulation. Protects from surges, spikes, brownouts & blackouts for small to medium DVRs, PCs, & other critical components.

model	outlets (batt./surge)	VA/Watts
ETR500	4/4	500/300
ETR700	4/4	700/420
ETR1000	4/4	1000/600
ETR1500	4/4	1500/900

Remote Power Management

RPM - Cut Costs & Save Time

No Reboot Calls

- 2, 8, and 16-port remote power management modules
- Manage remote devices from PCs, laptops, smartphones, tablets
- Eliminate service calls by remotely rebooting locked equipment
- Schedule power on/off to save energy
- Ping function allows continuous monitoring of devices
- Receive notification of power events and lockups via email, SMS text message
- Secure access from anywhere in the world
- Easy-to-use interface; no apps to download, software to install

model	outlets	voltage
RPM1521	2	120V
RPM1581HVN	8	120V
RPM20161VN	16	208V
RPM2082HVI	8	120V
RPM20162VI	16	208V

Small to medium phone, network, and security systems

PRO-LCD Series UPSs

AVR protection and ultimate runtimes for medium to large non-rack DVR systems. Extra battery capacity provides substantial backup time for added security during extended outages. 3-year warranty w/ non-prorated battery coverage, 5-year extended plans available.

model	outlets (batt./surge)	VA/Watts
PRO500LCD	6/2	500/350
PRO700LCD	6/2	700/490
PRO1100LCD	6/2	1100/770

PRO-RT Series UPSs

Versatile, feature-rich AVR UPS for rack, tower, or wall-mount installations. Includes LCD display, SNMP communications capability, and exceptional runtimes for rack-based installations. 3-year warranty w/ non-prorated battery coverage, 5-year extended plans available.

model	outlets (batt./surge)	VA/Watts
PRO1000RT	6/2	1000/700
PRO1500RT	6/2	1500/1050

Power Management in the palm of your hand

Critical phone and network systems requiring high power quality, extended runtime

EnterprisePlus Series UPSs

Phenomenal power quality and runtimes for large, critical applications. AVR and true sine wave output. Extended runtime capable. 3-year warranty w/ non-prorated battery coverage, 5-year extended plans available.

model	outlets (ups)	VA/Watts
E750RM2U	6	750/600
E1000RM2U	6	1000/800
E1500RM2U	6	1500/1200
E2000RM2U	7	2000/1760
E3000RM2U	7	3000/2560

Endeavor Series UPSs

Ultimate power quality true on-line UPS for critical applications. True sine wave output & zero transfer time during blackouts. Extended runtime capable *(see below)*. 3-year warranty w/ non-prorated battery coverage, 5-year extended plans available.

model	outlets (ups)	VA/Watts
ED100RM2U	6	1000/800
ED1500RM2U	6	1500/1200
E2000RM2U	7	2000/1600
E3000RM2U	7	3000/2100

Extended runtime and communications accessories for Endeavor and EnterprisePlus

Extended Protection

XL Extended Runtime Modules

Add significant runtime to Endeavor and EnterprisePlus UPSs with 2U XL battery packs. Individual chargers for fast recharges. 3-year warranty, 5-year extended plans available.

XL battery pack	applications
EBP36XL	E750, 1000, 1500
EBP72XL	E2000, 3000
EDBP24XL	ED1000
EDBP48XL	ED1500, 2000
EDBP72XL	ED3000

EXL Extreme Runtime Modules

Add even greater runtime to Endeavor and EnterprisePlus UPSs with 3U EXL battery packs. 2.25 to 3.5 times more capacity than XL. 3-year warranty, 5-year extended plans available.

EXL battery pack	applications
BP24RTEXL	ED1000
BP36RTEXL	E750, 1000, 1500
BP48RTEXL	ED1500, 2000
BP72RTEXL	E2000, 3000
	ED3000

SNMP Communications Cards

Add-on cards for Endeavor, EnterprisePlus, and PRO-RT allow communication, monitoring, and control via Simple Network Management Protocol (SNMP) through the network.

SNMP card
SNMP-NET
SNMP-SSL

Extended Warranty Plans

In addition to 3-year warranties on most UPSs, add 2 years of coverage with Standard or Premier extended warranty plans to coincide with **phone system service contracts**.

- 2-years additional coverage
- Non-prorated battery coverage
- Free battery replacement at 3-years with Premier plans
