## Company Profile

Fully dedicated to storage solutions, Infortrend is a leading provider of high performance storage solutions focused on quality and value.

## About Infotrend

Infotrend stands as one of the few fully integrated technology firms in the world to be completely dedicated to storage systems as well as related software and services. We research, design, and manufacture our products in-house with complete control over the entire process, leveraging leading expertise in engineering, industrial design, manufacturing and service.

Infotrend places great emphasis on providing customers with choice and flexibility, with a product range that meets diverse needs – from those of small businesses to large-scale big data applications including the ever increasing demands of cloud computing and virtualization infrastructures.

Our attention to details and customer care translate into products that are carefully balanced and optimized to offer the finest performance, dependability, and ease of access.

Established: **1993**  
Publicly Listed: **2002**(Taiwan Stock Exchange)

Worldwide Employees: **600**  
Manufacturing Base: **Taiwan**

Complete dedication to storage and related solutions

We care more about comprehensive storage solutions than any other provider.

All products designed and manufactured in house

With our quality guarantee, your data integrity is ensured.

Great variety of storage choices

You are sure to find the perfect storage solution for all your storage needs.

Solid industry-proven storage solutions

We partner with some of the world's leading technology companies to create the most advanced storage systems.

**Why Infotrend?**

## 2016 Awards and Achievements

- Won "Disk / Hybrid Product of the Year" at Storage Magazine's Storage Awards
- Received a stunning 10/10 in performance from Simply.Reviews for EonStor DS 4024B all-flash storage
- Launched EonStor GS and GSe unified storage families

# Industry Proven Solutions and Success Stories

For over 20 years, Infortrend's storage solutions have been resolving the IT challenges of different applications on different platforms, satisfying customers from various industries.

## Success Stories

### Media and Entertainment

Infortrend's solution plays an important part in our ability to do outstanding post-production work. I found Infortrend EonStor DS 4000 to be the perfect fit for our needs so that Roush Media can establish itself as an esteemed DI color grading facility among its peers.

- Keith Roush, CEO of Roush Media Inc.

### Cloud and Internet Application

"Some of our clients are looking to store data long-term, but don't need constant or immediate access; others require high performance and want to run a database from an SSD. Our new storage solution enables us to use any number of drives of different types in one unit and split them up, so we can offer one customer 5GB on SSD, while offering another 100GB on SAS HDD..."

- Mr. Barker, founder and technical director at 4D-DC.

### Manufacturing

"Starting from day one of implementation (June 2013), we have been enjoying nonstop operation for over 600 days. In addition, the performance of our VM infrastructure has improved"

- Alessandro Franchi, head of IT at Maddalena SpA.

### Government

"The benefits Infortrend storage brings to our information system are evident. It greatly improves our work efficiency, provides necessary capacity and soundly protects our data. We are satisfied that we were able to find a solution for our high storage requirements in such a competitively-priced storage system."

- Jian-Ning Ku, IT manager at the financial bureau Of Ili Prefecture, Xinjiang, China.

### Energy and Utilities

"Infortrend storage systems respond to both read and write requests with outstanding high speed. The included management suite also greatly simplifies our administration tasks. These high-quality systems can be seamlessly integrated into a multi-platform environment and deliver high reliability. They have not malfunctioned since deployment. For users whose application requirements are as challenging as ours, Infortrend storage is undoubtedly an ideal choice."

- Binnan Station of Shengli Oil Field Company

### Academic Application

"Among the many possibilities we looked at, the best solution in terms of performance and data integrity was by far Infortrend storage. Buying this storage solution gives us a great ROI and the best quality and functionality."

- Edward Szumiński, IT Department member responsible for the project in the Faculty of Automatics, Electronics and Informatics at Silesian University of Technology

# Infortrend Storage & Solutions

Infortrend follows a proud tradition of pioneering new technologies and approaches to storage. We delivered one of the first-ever external RAID systems with 2.5" drive support (SFF storage) and were also one of the first to launch 16GB/s Fibre Channel host interfaces RAID systems in the market.

This year, we will focus on bringing you more products and solutions for virtualization, flash storage, cloud and more.

## EonStor GS Family

A single consolidated file, block, and object storage system with cloud-integrated features for enterprises.

## EonStor GSe Family

A cloud-integrated unified storage for SMB, data storage, backup and sharing.

## EonStor DS Family

A complete storage solution offering high performance, full flash and virtualization support, and comprehensive data service features.

## EonServ Family

A hybrid server-storage design for best cost-performance ratio featuring Infortrend's RAID platform virtualization

## Infortrend Products and Solutions – Maximum numbers

IOPS 750K	Database 390K/s	VDI 6,000	Exchange 30,000 mailboxes	Data service	SSD cache	Cloud
MB/s 11,000(R) 5,500(W)	Media & Entertainment 4K : 8 stream	Back up 444 drives	Surveillance 1200 IP CAM		Auto storage tiering	Remote replication
					Snapshot	Thin provisioning
					Volume mirror/copy	Self-encrypting drives

# Total Quality Management

At Infortrend we understand how down time or storage failures can have a big impact on your business. That's why we insist on carrying out a strict quality control process to ensure 99.999% reliability in all our storage systems.

Here is how we ensure our systems' quality from design to manufacturing:

## Total Quality Management (TQM)

- Deploy TQM in design, vendor selection, manufacturing, and service QA
- Weekly quality reviews driven by top management team

## Best practices for process control methodology

- Fool-proof software automation for production testing
- 6 sigma process control methodology

## Best practices for shop floor control and traceability

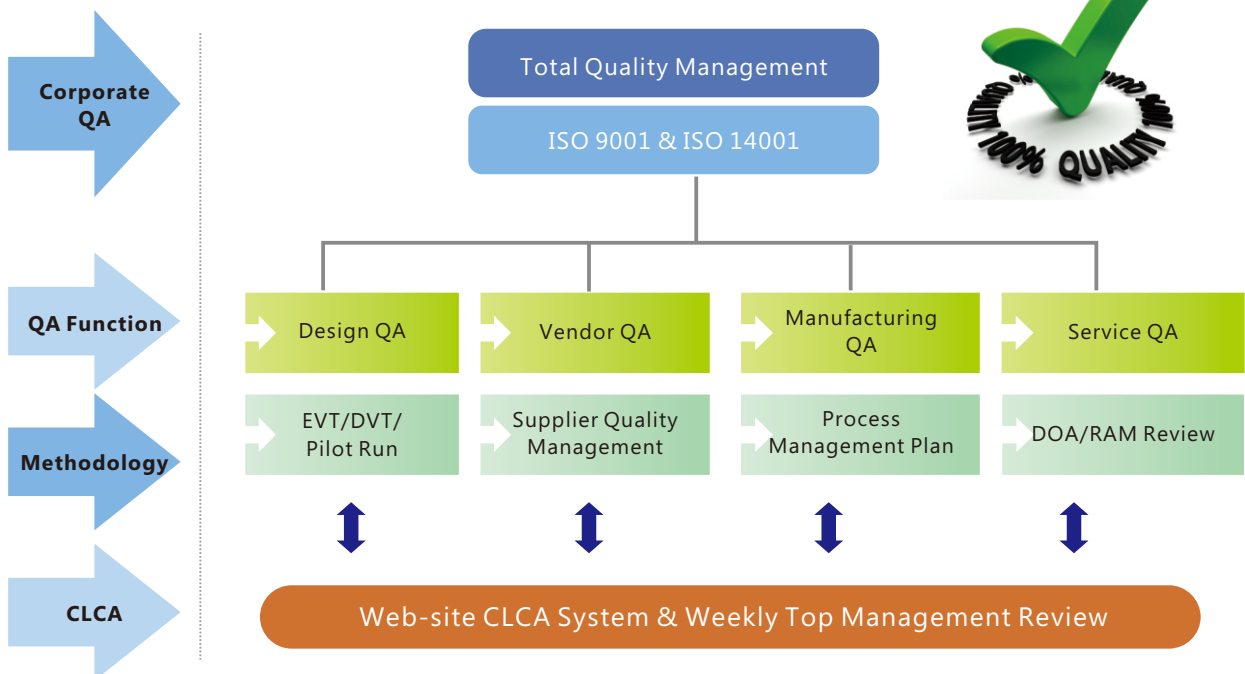

- Forward/backward traceability up to PCBA component level
- Fool-proof routing control for operations and services

## Closed-loop corrective action

- Web-based integrated CAR (corrective action request) system
- Benchmark 8D problem solving methodology

## Infortrend quality control system:

Remark : (CLCA closed loop corrective action)

## Worldwide Service and Support

Beyond guaranteed product quality, Infortrend knows that excellent service is essential for customer satisfaction. We are always ready to provide you with the best support, advice and after services, as well as to guide you through all storage related enquiries.

### Infortrend Service Center -

The Service Center is a comprehensive support site where you can conveniently issue tickets, understand various features via applications notes and other documents, download manuals and firmware, and read the latest news.

## Alliance and Partners

Infortrend works closely with industry leaders to deliver integrated storage solutions. Thanks to extensive compatibility testing, certification, and collaborative product design, Infortrend can assure that our systems are fully interoperable with partner solutions.
